Dear Bobby,

I would like to take this opportunity to personally thank you and your staff for the excellent job you did on constructing my office. Your thoroughness and attention to detail certainly made a big impact on completing the project on time. I also greatly appreciate your willingness to work with me in regards to my specific needs in building a facility that meets my unique professional needs. The project was completed within budget and I again appreciate the cost saving recommendations that you provided on my behalf during the construction. We have occupied the building now for over a year and during this time we have had minimal issues in regards to the construction of the facility. Additionally, whenever a problem has arisen, you have very promptly attended to these issues with minimal disruption to my medical practice. Once again, I greatly appreciate all that you have done and would be happy to give Pyramid Contracting my highest recommendation to anyone who would ask.

Sincerely,

  
Scott M. Sweazy, M.D.
